## Results Summary

$>$ Q2 revenue growth was 14\% against 3-year average of 18\%
$>$ There has been a reasonable demand environment with real estate upcycle and infrastructure investment
> Consumer demand is slightly sluggish, though stable
$>$ Margin in Q2 impacted owing to full absorption of high-cost inventory against falling RM /sales prices
> The impact was pronounced in Cables and Lloyd
$>$ Despite lower margins we persisted with long term investment in brand and people
$>$ We believe that margin have hit the trough. Sequential margins from Q1 are stable and will improve from this quarter.
