WELCOME TO HAVELLS WATER PURIFIERS

At Havells we believe in making a difference by touching every aspect of our consumers' lives through the products we make and bringing positive changes in it. Since the very beginning all our products have been manufactured keeping the highest standards of quality and innovation in mind and we make sure that they meet the world class standards that our consumers demand. And this legacy continues unwaveringly when it comes to Havells Water Purifiers too.

Our experts with decades of experience in Water Purification Technology have been listening to the consumers and we understand that due to lack of adequate information, there are a lot of questions and confusion in the consumers' minds about the need of water purifiers today and how to choose a water purifier basis the water quality in their area. Water quality has changed drastically over the years and many water purifiers available in the market today are not effective to give protection from the new age pollutants and provide safe drinking water devoid of any impurity.

Keeping this in mind, we have designed and perfected a water purifier that recognizes the challenges of new age pollutants and removes them effectively. What makes Havells Water Purifier unique is the fact that it has a powerful purification process to remove all complex impurities, adds back wide spectrum of naturally occurring essential minerals and trace elements that were removed in the filtration process and makes it easier to absorb and hydrates your body.

It is our commitment that we continuously strive to make lives better for our consumers, so let's understand your water purifier better in the subsequent sections.

Dear Customer,

We welcome you to the ever growing family of happy Havells consumers. Havells is being trusted by millions of consumers all over the world for its quality products and efficient after sales service.

It's a matter of great pride for us that you've entrusted Havells Water Purifier for your family and home. Our experts with decades of experience in Water Purification Technology have been listening to the consumers like you and have developed this purifier keeping in mind your needs and demanding lifestyle.

We are confident that you will be satisfied with its performance and it will fulfill your need for providing clean and safe drinking water to your loved ones.

This manual is a simple and easy to understand step by step guide that explains everything you need to know about your water purifier and it will assist you to get the best performance out of it. Please go through this booklet to understand its operation and periodic maintenance.

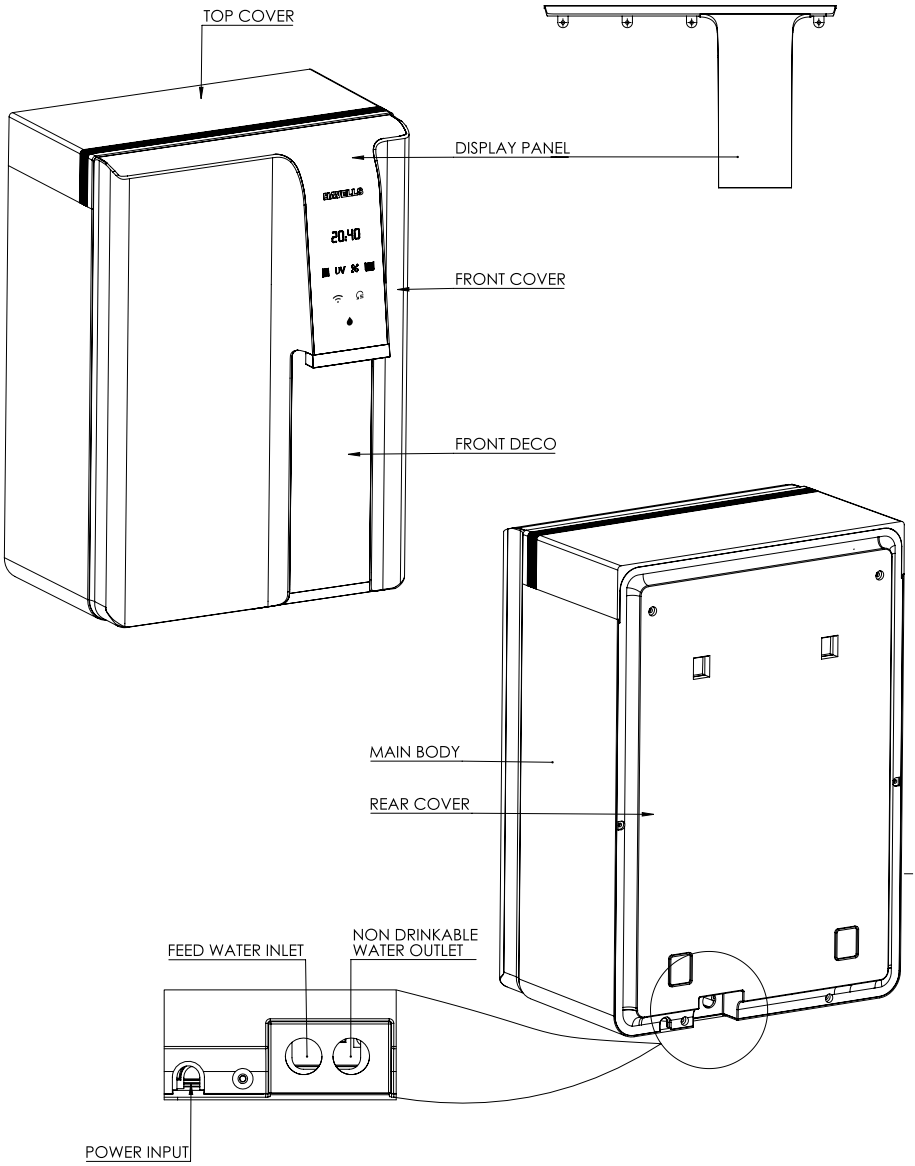
However in case you have any query or you need further assistance, please feel free to contact us at 08045 77 1313 or e-mail us your concerns or suggestions at customercare@havells.com

We thank you again for choosing Havells Water Purifier and assure you that your journey with us will be a delightful one.

Yours sincerely

Havells India Ltd.

PRODUCT OVERVIEW –
Gracia Neo Smart 4X



TECHNICAL SPECIFICATIONS-Gracia Neo Smart 4X

PARAMETERS	VALUES
Product dimensions (L×W×H) in cm	(28.4 x 35.4 x 50) cm
Net weight	~ 12 kg
Flow rate*	Up to 25 L/h
Storage tank capacity	~ 6.8 L ± 300 mℓ
Purification technology	Absolute safety through 100% RO & UV technology
Purification stages	12 Stages
Membrane type#	Thin film composite RO membrane
Material of construction for plastic components	Food grade
Power rating (maximum)	60 W
Working voltage	1 Phase, 150 V - 250 V AC, 50 Hz
% Recovery**	≥ 40%
TDS reduction**	≥ 90%
pH ##	Purified Water pH in Alkaline range
System disinfection efficacy	6, 4, 3 Log reduction of bacteria, viruses & cysts
Installation type	Wall mount & Counter top

RECOMMENDED FEED WATER QUALITY	
PARAMETERS	LIMITS
Total dissolved solids	Up to 1500 mg/L (ppm)
Total hardness	Up to 300 mg/L (ppm)
Turbidity	Up to 5 NTU
Feed water pressure***	0.041 MPa (6 psi) - 0.21 MPa (30 psi)
Feed water temperature	5 °C - 45 °C
Iron ****	Less than 0.3 mg/L (ppm)
Free chlorine	Less than 0.2 mg/L (ppm)

NOTE:

*Flow Rate may vary depending upon feed water quality, input water pressure, condition of membrane & cartridges.

** Recovery / TDS percentage reduction may vary depending upon type of feed water, feed water pressure & cartridges life.

***In case, input water pressure goes below 0.041 MPa (6 psi), you need to install external booster pump and if pressure is above 0.21 MPa (30 psi), you need to install pressure reducing valve at an additional cost

****In case, the Iron content in input water is more than 0.3 mg/L (ppm), you need to install IRON REMOVER PLUS at an additional cost.

#The chemical preservative used in the RO membrane is of food grade quality.

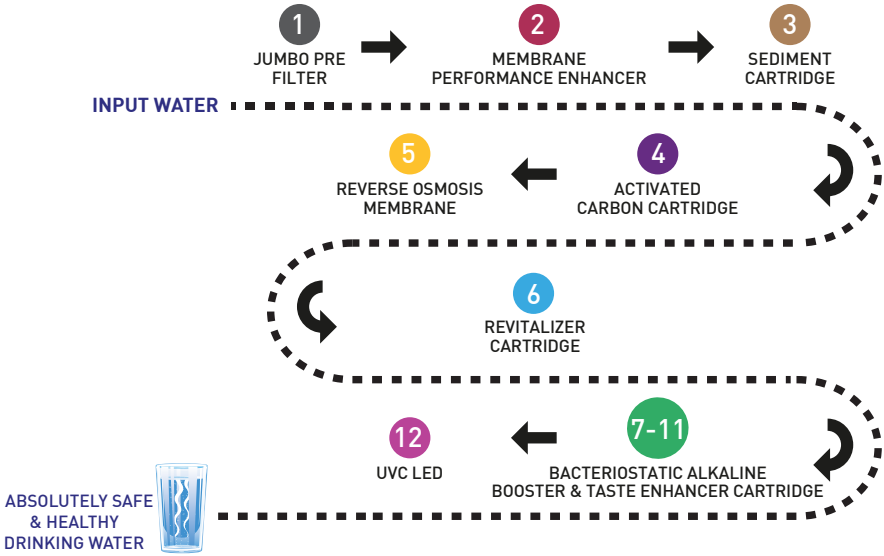
##Under Standard test conditions of Alkaline Cartridge (as per BIS standard IS 10500:2012)

• This water purifier cartridges are designed to provide safe drinking water for 15000 L###

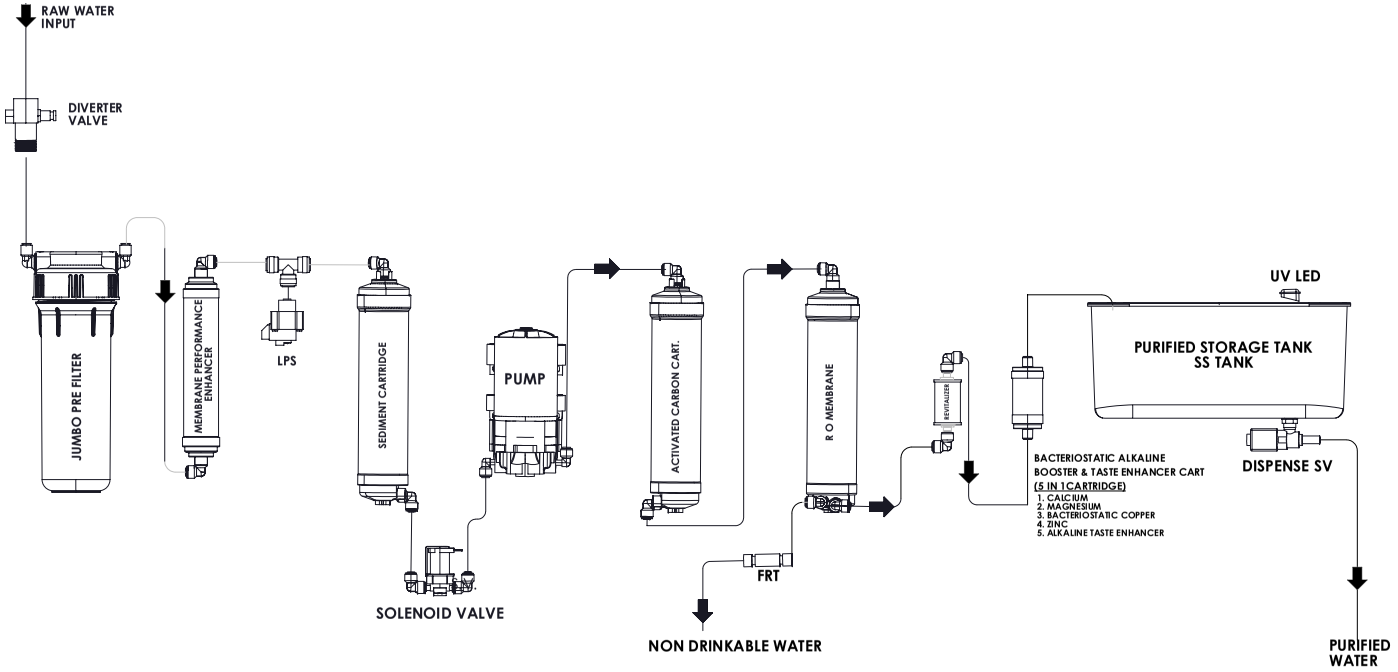
###Standard Test Conditions: Tested with water up to 1000 mg/L (ppm) TDS (with NaCl), Pressure: 1.0 kg/cm^2, Turbidity: Max.1 NTU, Temperature:25 ^{0}C, Chlorine: below 0.2 mg/L, Iron: below 0.1 mg/L. Pressure on the membrane: 0.55 MPa (80 psi). Results may differ as per input water Quality & product working conditions

STAGES OF PURIFICATION

Gracia Neo Smart 4X



WATER FLOW DIAGRAM - Gracia Neo Smart 4X



THE PURIFICATION PROCESS

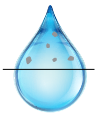
Havells Water Puritiers have a powerful purification process which is divided in to 3 Phases viz. Pre-Treatment, Purification & Value Additions.

In pre-treatment process water will pass through Jumbo Pre Filter, Membrane Performance Enhancer, Sediment Filter and Activated Carbon Filter.

During the purification process 100% water passes through RO Membrane followed by UV LED in the storage tank and Revitilizer Cartridge in which water passes through a controlled bipolar magnetic field which realigns the water molecules and make it more bio-available. In the final stage of purification, pH of water will be enhanced and minerals will be added to purified water through Bacteriostatic Alkaline Taste Enhancer Cartridge.

1 JUMBO PRE FILTER

It removes coarse and fine suspended impurities such as sand, silt, dust, clay, rust particles etc. from the feed water and makes it clear. This improves the performance and the life of the following cartridges and the RO membrane.

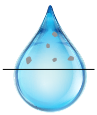


2 MEMBRANE PERFORMANCE ENHANCER

It prevents scaling formation on RO Membrane due to hardness in feed water, which results in improved performance and enhances the life of RO membrane.

3 SEDIMENT CARTRIDGE

Sediment Cartridge removes coarse and fine suspended impurities such as sand, silt, dust, clay, rust particles etc. from the feed water and makes it clear This improves the performance and the life of activated carbon cartridge and the RO membrane.



4 ACTIVATED CARBON CARTRIDGE

Activated Carbon, filter-cum-adsorber Cartridge removes a wide range of dissolved organic impurities like pesticides and herbicides along with residual chlorine and its by-products (THMs) present in the water. It also removes colour & objectionable odour from water. This in turn improves the taste of the water.

5

REVERSE OSMOSIS MEMBRANE

Reverse Osmosis Membrane removes dissolved contaminants such as dissolved solids, salinity, pesticides, herbicides as well as hazardous heavy metals like Arsenic, Chromium, Lead and Fluorides etc. It also removes harmful microbiological impurities such as bacteria, viruses and cysts from the feed water. It ensures absolutely safe and pure drinking water.

6

REVITALIZER CARTRIDGE

Revitalizer Cartridge realigns the water molecules and makes it biologically active. It improves the hydration and mineral absorption in body

7-10

BACTERIOSTATIC ALKALINE BOOSTER & TASTE ENHANCER CARTRIDGE

It improves the pH of purified water by adding back-wide spectrum of natural minerals like Calcium, Magnesium etc. It lowers the Oxidation Reduction Potential (ORP) resulting into antioxidant nature of water, transforms regular water into Alkaline water, which is healthier & tastier.

11

GERMICIDAL UV LED WITH 24*7 TANK STERILIZATION

An optimum exposure of water to UV-C LED radiation in storage tank makes water free from microbiological threats like pathogenic bacteria and viruses.

24*7 tank sterilization through UV LED prevents the Bio-Film formation . Thus, maintains hygiene of water and stainless steel tank.

KEY FEATURES OF HAVELLS WATER PURIFIER

DOUBLE PROTECTION: 100 % RO + UV LED PURIFICATION

Absolute Safety through 100% RO Purified Water:

100% Water passes through the RO Membrane to ensure absolutely safe and pure drinking water.

Purification through Germicidal UV LED :

An optimum exposure of water to germicidal UV-C radiation in storage tank makes water free from microbiological threats like pathogenic bacteria and viruses.

24x7 Tank Sterlization

UV LED prevents the Bio-film formation.
Maintains hygiene of water and stainless steel tank.

BACTERIOSTATIC ALKALINE BOOSTER & TASTE ENHANCER CARTRIDGE

It improves the pH of purified water by adding back-wide spectrum of natural minerals like Calcium, Magnesium etc. It lowers the Oxidation Reduction Potential (ORP) resulting into antioxidant nature of water, transforms regular water into Alkaline water, which is healthier & tastier.

REVITALIZER CARTRIDGE

It realigns the water molecules and makes it biologically active. It improves the hydration and mineral absorption in body

CONTEMPORARY DESIGN & AESTHETICS

Futuristic design, superior dual tone colour finish, compact design and functional display panel, compliment your kitchen décor.

AUTO DIAGNOSTIC

System diagnoses performance of vital components to ensure optimum performance and display error codes.

MAINTENANCE ALERTS

Timely alerts on preventive maintenance for the system.

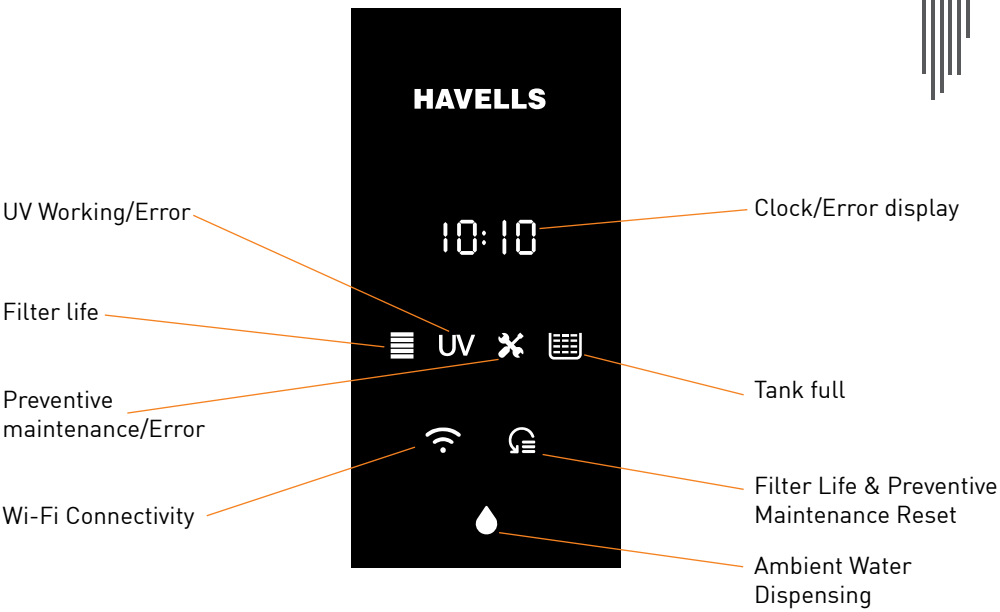
CARTRIDGE LIFE INDICATOR

Monitors and displays the filter life expectancy to help you plan comprehensive maintenance in advance.

STAINLESS STEEL STORAGE TANK WITH INGRESS PROTECTION COVER

Best in class hygiene. Stops external invasion of insects and dust particles.

FUNCTIONS OF SMART INDICATORS



DIGITAL CLOCK DISPLAY

Switch ON your Gracia Water purifier, system will go in self check mode and all indications on display panel will glow for 7 seconds.

For clock setting, within first 7 seconds press warm and drop icon together. Touch Wi-Fi icon to decrement and Reset icon to increment the digit. Touch Drop icon to shift and again to set the time.

UV INDICATION

Once the tank is full, the indicator will turn ON. This means the in-tank UV LED sterilization is running for the next 15 minutes. The same solid light will turn ON whenever the UV LED operates for periodic tank sterilization, which happens: • Every 4 hours after the tank becomes full, or • When power is restored while the tank is already full

TANK FULL INDICATOR

Once tank is full of water the system will stop and tank indicator glows solid.

If water is dispense from the system, the purification process will restart.

PERIODIC DISINFECTION

If water is not dispensed from the system for 4 hours, periodic UV sterilization cycle will start and the water stored in tank will be disinfected by exposing UV light for 10 minutes.
The periodic treatment process ensures safe drinking water and sterilised water storage tank at all times.
During this cycle, all indication will glow solid and “PtS” (Periodic tank Sterilization) message will be displayed. During Pts, the system allows normal water dispensation.

WATER DISPENSING OPTIONS

The Dispensing touch is to start or stop the flow of filtered water by touching the drop icon.

FILTER LIFE

The filter life bars and beep alert indicate filter life status:

- 90% filter life: Bottom filter bar blinks and 10 beeps every 4 hours
- 95% filter life: Bottom filter bar blinks and 10 beeps every hour
- 100% filter life: All filter life blinks and Continuous beep indicating filter replacement is required. A message “CnGF”” will appear for 2 seconds on the clock at an interval of 10 seconds.

PREVENTIVE MAINTENANCE

After every 6 months if preventive maintenance is not attended in time, the service indication will start blinking and a message ‘PSEr’ will appear on the clock for 2 seconds at an interval of 10 seconds.
Please call Havells Service to attend the machine for preventive maintenance.

WI-FI CONNECTIVITY STATUS ICON

When it is blinking, trying to connect.

When it is solid, it is connected to the Wi-Fi.

PROCESS TO CONNECT GRACIA NEO SMART 4X TO WI-FI & MOBILE APP

Havells one App installation and WiFi connectivity process:

- Download the Havells one app in your mobile from play store or Apple app store.
- Login to the app by entering the registered mobile number & OTP.
- Power ON the water purifier.
- Hold the Wifi icon after the power ON beep within 3 seconds. If Device goes in normal mode, then turn it OFF and repeat the process.
- Display will show F00x and Indication LEDs will be blinking.
- Click on "My product" then " Add new device"
- From the drop-down menu, select water purifier and amongst the model, select Gracia.
- Click on " Set up my smart device"
- Click to select your preferred WIFI network to proceed, please note that WiFi should be 2.4 GHz and Bluetooth is ON.
- Enter your Wi-Fi password and then click on " Save and continue".
- There will be a single long beep after the device is configured and all the indications will be stopped, enter the Device name in App and device continues to work normally
- "Device successfully connected" popup will come on screen.

You will find your connected device in homepage. Click anytime to view and manage your device services like:

- You can check filter life, preventive maintenance, Purification Process, errors as well as log complaint through the App.

ERRORS & THEIR DEFINITION
Type of faults, Indications & Error codes

INDICATION ON CLOCK DISPLAY SE : 01	In case fault detected in UV LED then the indicator will blink. Error code message "SE- 02" will appear in clock display.
INDICATION ON CLOCK DISPLAY SE : 02	In case fault detected in Normal water dispense SV then the indicator will blink. Error code message "SE- 03" will appear in clock display.
INDICATION ON CLOCK DISPLAY SE : 03	In case fault detected in RO pump / SV fault then the indicator will blink. Error code message "SE- 04" will appear in clock display.
INDICATION ON CLOCK DISPLAY SE : 04	In case fault detected in PCB functioning then the indicator will blink. Error code message "SE- 06" will appear in clock display.
	In case of low pressure condition (Input water pressure is not adequate) then tank indication will blink

INSTALLATION INSTRUCTIONS

1. Open the carton and take out the following items from accessory kit for installation:
   a. Diverter valve
   b. Mounting plate with plastic inserts and mounting screws
   c. PL 4 pipe-White and blue
   d. Jumbo Pre Filter
2. Select an appropriate water connection point.
3. Please note water purifier is connected to ambient temperature water supply only.
4. Fix diverter valve with the help of pipe wrench/plumbing equipment's at selected water point.
5. For wall mounting: Align the mounting plate at appropriate height and fix it with the help of mounting screws. Hang the water purifier on mounting plate.

OR

Place the water purifier on counter top.

6. Fix the water inlet pipe (white pipe) from diverter valve to the feed water inlet port of water purifier and open the diverter valve. Ensure there is no leakage of water and bending of pipe at any point.
7. Outlet pipe (blue pipe) is connected to flushed water outlet port of purifier.
8. Fix the power plug into a 3 pin socket. It is advice to fix the product to the power supply that is provided with the purifier.
9. Switch ON the mains, unit will start working.
10. It is advised to drain the first fill of water tank after installation of the water purifier or after changing the filters. This water can be used for washing, cleaning and other household purpose.

CAUTION:

Before installation/mounting:-Flush all filters and membrane thoroughly and independently for 3 minutes - 5 minutes to remove fine particles & preservatives present in filters.

Check input water pressure. Use booster pump if feed water is less than 0.041 MPa (6 psi) or pressure reducing valve if it is more than 0.21 MPa (30 psi), available at an additional cost. The appliance is intended to be permanently connected to the water mains and not connected by a hose-set.

The appliance is intended to be permanently connected to the water mains and not connected by a hose-set.

DO'S, DON'TS & SAFETY INSTRUCTIONS

DO'S

Always install the water purifier in a cool, dry and well ventilated place in upright position.

Keep the tank lid closed properly to avoid contamination of water due to exposure to dust, dirt or insects.

To keep your purifier functioning properly, always use Havells genuine spare parts.

Call Havells customer care for any assistance and service requirement.

Keep the purifier in power ON mode to ensure water availability at all times. System automatically shuts OFF when tank is full of purified water.

If for any reason you are not using the water purifier for a long time, for example during a holiday, then make sure first you turn off the input water supply and drain the storage tank.

If for any reason you are not using hot water for more than 48 hours, its advised to discard 1 litre stored water by faucet.

DON'TS

Never connect your water purifier to hot water supply as it is designed to work effectively for input water supply between 5 °C to 45 °C temprature.

* Never place any heavy, sharp or wet objects on the purifier.
* Do not operate any electrical appliance with wet hands or while standing in water.

* Do not make modifications to a cord's plug at any time.

* DO NOT fix or try to repair any component parts. If you find any wrong in your Gracia Water Purifier, Please call Havells Service to attend the machine for preventive maintenance.

In case of any break down do not buy local spares parts and components for service or replacement.

Do not install product in direct sunlight.

SAFETY INSTRUCTIONS

Havells Water Purifier is designed keeping in mind the highest safety standards, but there are certain safety precautions that need to be followed while using the product for its proper functioning.

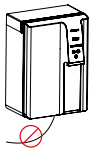
Do not move or relocate the purifier when it is working.

To avoid electric shock, do not pull out or touch the power plug with wet hands.

Do not use the water purifier if the power cord is damaged or if there's a strange noise, burning smell or smoke. Quickly switch off the power, unplug the cord and call Havells Customer Care.

Don't open the purifier yourself to clean the cartridges or to replace any parts.

Never use the discarded water from the purifier for drinking. However it can be used for cleaning, washing, mopping, gardening etc.



- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.

* This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved

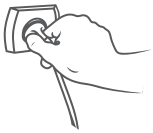
CLEANING AND MAINTENANCE

Storage Tank of this product must be * periodically cleaned (at least once in 6 months, during Preventive service) by use of 4 drops - 5 drops of disinfectant like hypochlorite solution to water purifier tank (tank full), keep it for 15 minutes. Discard the disinfectant water and the first fill of water tank completely through water dispensing tap.
* As per customer need.

Use a wet cloth to clean the external body of the purifier. Do not use detergent or soap.

Avoid excessive rubbing of the decorative part of the purifier while cleaning as it may lead to scratches or loss of shine of the purifier.

Make sure you switch off the power supply and close the diverter valve whenever you're out of home for a long duration.



Do not try to open or tamper the purifier yourself if you observe any problem. Kindly contact Havells Customer Care to resolve the issue. Water purifier should be examined by Havells trained service engineer only.

Do not clean the water purifier or spill water on it, while the purification process is on.

LIFE OF CONSUMABLE CARTRIDGE

PRE FILTER & MEMBRANE PERFORMANCE ENHANCER CARTRIDGE:

Pre Filter and Membrane Performance Enhancer Cartridge, has filter life of 6000 L* of purified water.

SEDIMENT, ACTIVATED CARBON & RO MEMBRANE CARTRIDGE:

Sediment Cartridge, Activated Carbon Cartridge and RO Membrane has filter life of 15000 L* of purified water.

BACTERIOSTATIC ALKALINE BOOSTER & TASTE ENHANCER CARTRIDGE:

Bacteriostatic Alkaline Booster & Taste Enhancer Cartridge has filter life of 3000 L* of purified water.

GERMICIDAL UV LED:

UV LED has a life of 5000 hours burning hours.

* May vary depending on the feed water quality.

CALIBRATION & GENERAL MAINTENANCE INSTRUCTION FOR HAND HELD TDS METER

The functioning of the TDS Meter will be ascertained by our authorized service representative periodically (at least once in 6 months, during Preventive service) or as per the customer request.

For Calibration

1. Take the 100 mℓ water of standard solution in a beaker.
2. Carefully immerse the probes of the TDS Meter in the standard calibration solution and turn ON the TDS meter.
3. The TDS of water will display, wait for 10 seconds - 20 seconds to stable the reading.
   i. If value matches with the standard calibration solution (±10%) then calibration is considered as completed.
   ii. If the value does not match with the standard calibration solution then follow below instructions
   a. To adjust the readings, long press the HOLD icon for 3 seconds. Hold will starts blinking on display.
   b. Then press the Temp. icon. TDS of the standard calibration solution will display and blinks on the display to indicate that calibration is completed.

4. Remove the TDS meter from the solution. Clean the probe by purified water and dry it with the help of cloth/cotton.
5. Turn the meter off, wait for a moment & turn ON the meter again to start using.

For General Usage & Maintenance

1. Immerse the meter in the water/solution such that the probes are completely dipped in it.
2. Shake & clean with purified water after each use.
3. The meter is not water proof. DO NOT drop or submerge the meter in water.
4. Do not store the meter in high temperature or direct sunlight.
5. Replace the battery if the display is dim or readings are consistently not accurate.

Important Notes.

1. TDS Meter Range: From 0 mg/L to 2000 mg/L.
2. Tolerance: ±10% of water TDS.
3. Depending on the make of the meters, the calibration buttons may be “on/off” or “hold” or a combination of both. Contact authorized Havells service technician for support.
4. Conversion factor of conductivity from µs/cm to PPM (mg/L) = 2 µs/cm = 1 PPM = 1 mg/L

HOW TO REUSE THE FLUSHED WATER

Although the flushed water from the purifier has slightly higher concentration of TDS and hardness but it is filtered and activated carbon treated tap water. It can still be used for following activities:

- for watering the plants
- for mopping and cleaning the floor
- to clean bathroom

TROUBLESHOOTING

	PROBLEMS	CHECKS	SOLUTIONS
Before calling Havells Customer Care or service engineer, check the following points: 1. Power supply should be ON 2. Inlet water supply should have sufficient pressure/ Waterflow	Purified Water taste is bad or unusual	1. Is the tank clean? 2. Is purified water being stored in the tank for a long time? 3. Is the Cartridge replacement due as per the service requirement?	1. Clean the storage tank. 2. Discard the water stored in tank and clean the tank before starting the purification process again. 3. Contact Havells Customer Care to request for the cartridge
	Purification time is very long/short or filtration has stopped.	1. Is the diverter valve open properly? 2. Is water pressure below recommended value? 3. One or more Cartridges may have been clogged or damaged.	1. Open the water inlet valve completely. 2. Contact Havells Customer Care to get the pressure checked and get it resolved. 3. Contact Havells Customer Care to get the cartridges replaced.
	Very less or no water is being flushed out.	1. Check if the flushed water pipe (Blue pipe) is bent anywhere. 2. Check if the flushed water pipe is blocked in any place.	1. Remove the bend in the flush water pipe if found. 2. Switch off the purifier and contact Havells Customer Care for proper checking the product.
	Water leakage in any part.	Check if water is dripping from purifier or connecting pipe.	Close the water inlet valve, unplug the power cord and then contact Havells Customer Care for a check-up of the product and get it rectified.

FAQs

1. What is TDS?

   TDS stands for Total Dissolved Solids in water. Beyond a level,

   this affects taste of water and

   beverages prepared with such water.
2. Is the purification process completely automated or a manual intervention is required?

   The purification process is completely automatic. Purifcation starts when water level in purified water tank goes down and stops once water tank is full.
3. How much time does it take to purify water in Havells Water purifier?

   Havells Water Purifier (GRACIA NEO SMART 4X) can purify upto 25 L of water per hour However, time taken for purification depends on the feed water quality, input pressure and life of the cartridges.
4. Is the water from first purification cycle fit to drink?

   No, it is not recommended to either store or drink the first fill water in the storage tank. Always discard the water from the first purification cycle that gets collected in the storage tank.
5. What should I do if there is no water in the storage tank?

   In case there is no water in the storage tank, plesae check if inlet water supply is on and power is switched on. If none of this applicable, contact Havells Customer Care for further assistance.
6. Can I service the purifier on my own?

   It is not recommended. Your water purifier should always be serviced by Havells Service Engineer. Always contact the Havells Customer Care if you are facing any issue which requires service or opening of the device to check it.
7. What should I do if there is a leakage from the purifier?

   First switch OFF the purifier from power switch and then close the diverter valve. Look for any visual improper fitment and contact Havells Customer Care for rectification.
8. How long the purified water stored in the storage tank can be used for drinking?

   You can safely consume the purified water stored in the storage tank of your purifier for up to 2 days post purification. Just make sure that you store it away from direct sunlight. If the water is stored for more than 2 days due to any reason, then discard the complete water from the storage tank, refill the storage tank with purified water and consume it.
09. What should I do if any part of the purifier is broken?

    In case any part is damaged on opening the packaging, please call the Havells Customer Care immediately. Our trained service engineer will visit your home at the earliest and assist you.
10. Are Ultraviolet light harmful like radiations?

    UV Radiation does not cross solid objects, like metal, plastic, hence UV radiation will never come out of storage tank and harm anyone.
11. Is external pre-filter part of Purifier Unit, does it come with the product purchase as part of initial packaging? Is it free?

    Yes, the pre-filter packed along with the purifier unit and will be installed during product installation.

WARRANTY TERMS AND CONDITIONS

Havells India Ltd (HIL) offers limited warranty for this water purifier against defect arising from faulty design, workmanship and material subject to the following terms and conditions:

1. 4 Years Unconditional Warranty is provided on all electrical & functional parts, Filter / Consumables & manufacturing defects from the date of original purchase invoice. "For the purposes of this warranty, 'Unconditional Warranty' means that, subject to the exclusions expressly set out herein, the covered components shall be repaired or replaced free of charge during the warranty period."
2. Havells India Limited will offer Two preventive maintenance checkups during 1st year term of Unconditional warranty. The 2nd years, 3rd years & 4 years service visit will be on need basis at free of cost. Customer must register the call at Havells customer care.
3. Free installation by Company at your preferred date and time. In high rise buildings where input pressure exceeds 0.21 MPa (30 psi), a pressure reducing valve will be installed at an additional cost. In low rise building and independent houses where input pressure is below 0.041 MPa (6 psi), a pressure booster pump will be installed at an additional cost.
4. Consumers shall promptly notify the company about any defect noticed and give the company or authorized personnel/representative adequate opportunity to inspect, test and rectify the defect.
5. The company or its representatives are entitled to retain the damaged or defective parts replaced under warranty on free charge basis.
6. The company's liability under warranty will be limited only to the concerned product and its defect, which occur under conditions of normal operations in home application, under proper usage and maintenance. It excludes any defect caused due to faulty care, maintenance, repair and alteration to the product or to its part by unauthorized personnel.
7. It is mandatory to provide original bill/invoice copy along with duly stamped warranty card at the time of any repair work being done by authorized representative.
8. This warranty is confined to the first purchase of the product only and is not transferable.
9. In the event of repair during the warranty period of the purifier, this warranty will thereafter continue and remain in force only for the unexpired period of the warranty. Replacement of part would be purely at the discretion of Havells India Limited, the same part will be replaced with the part model of price equivalent at the time of purchase.
10. The consumer will have no claim under this warranty in an event of any illness, sickness, death, personal injury, property or consequential damages arising either directly or indirectly due to utilization of product. Authorised Service Personnel will carry out repair under warranty.
11. Service under this Warranty excludes plastic parts, non-electrical parts, painting of the body, aesthetical parts, panels and other styling decorative materials, Also excludes external attachments, like Booster Pump, Pressure Reducing valve etc.
12. Warranty is not applicable and will be void under the following heads/ circumstances:
    a. If the warranty card presented to authorized service personnel at the time of service of the product is not duly filled and stamped by the dealer.
    b. If the product is not operated or handled as per instruction given in the operating instruction booklet.
    c. If the device is not installed in proper procedure specified.
    d. If any defect caused due to improper electric circuit outside the device in the house or any defective electric supply.
    e. If installation and any repair work is carried out by an unauthorized personnel and usage of consumables and parts by unauthorized personnel. (only Havells India Limited Authorised Service Personnel will carry out repair under warranty)
    f. If any damage caused due to transportation or shifting post installation from consumer's home.

g. If 12 months have expired from the date of purchase even though the device is not in use for anytime during warranty period for any reason.
h. If the damage is caused by pest infestation.
i. If product/item is not installed by company technician/ Authorised Personnel
j. If Havells water purifier is used for any purpose other than for home application purpose (not to be used for commercial purposes)
k. If damage to the product is caused by accidents, pests and vermin, lightning, wind, fire, fioods, or acts of God
l. If any additional accessories were provided at the time of installation/service, the same will not be covered under product warranty.
m. If any external accessories supplied by the dealer.

13. Warranty does not cover visitation charges of service technician if this water purifier is installed beyond municipal limits of the city in which company's Authorized Service Center is situated/ located. All expenses incurred in collecting the units or parts there of from the company's authorized service center as well as expenses incurred from deputizing service personnel/ technicians for conveyance and other incidentals, etc., shall be borne by the customer. Local charges for transportation and handling charges may vary by location. Customers are advised to verify in advance the aforementioned charges. If the customer wishes to bring the unit on his/ her own to an authorized service center, such shall be at his/her own risks & consequences.
14. Reinstallation or uninstallation of product based on customer demand and packing material, if used, will be chargeable.
15. Warranty will not cover transportation cost in case customer is moving the product to another location.
16. In case of any unpredicted situation and non -availability of spares, prevailing depreciation policy of Havells India Limited (subject to the sole discretion of Havells India Limited, may be changed without prior notice) will be applied to the product as a solution.
17. Settlement of all claims and disputes arising out of and in relation to this water purifier shall be subject to Delhi jurisdiction only.
18. The company or its Authorized Service Center reserves the right to retain any part or component replaced at its discretion in case of a defect discovered in the equipment during the warranty period.
19. The warranty is valid within India only.

10 YEAR Stainless Steel Tank WARRANTY*
