

## Make your house safe this monsoon with Havells Euro II range of Building Circuit Device like MCB, RCCB & Surge Protection

- Sets industry benchmark with first ever 'Six Years Warranty' on its technologically advanced MCBs and RCCBs
- The flame-retardant Euro II series will ensure users to keep their houses safe during the monsoon season
- Continues to be No. 1 MCB Manufacturer in the country. Targets Rs1000 crore revenue from building circuit protection devices over next three years
- Ramps up production to approx. 6 million poles per month at the state of the art manufacturing plant

**Chandigarh, July 23, 2019:** Havells India Limited, leading Fast Moving Electrical Goods (FMEG) and Consumer Durables Company, today offered EURO-II range of technologically advanced SPD (surge protection device), RCCB (residual current circuit breaker) and MCB (miniature circuit breaker) which ensure safety from electrical hazards that upturn during monsoons. RCCBs and MCBs come with enhanced safety features and first time ever warranty of 'Six Years', ensuring peace of mind of users.

The range has been completely designed and developed at its R&D centre in Noida as per global specifications. EURO-II series of MCBs & RCCBs come with nickel plated terminals to give a high resistance from corrosion and are made of flame-retardant material. It comes with all new features like improved bi-stable clip, line load reversibility coupled with dual certification for both, domestic and industrial applications. These surge protection devices are completely made of toxic-free material and are globally certified and adhere to IEC and IS norms.

New age consumers are fast adopting new technology, embracing more and more gadgets thereby increasing load on electric sockets. However, the wiring or the load in the house remains the same as before. The new range of Havells' circuit protection devices are designed keeping in mind user safety, threat of voltage surge, leakage current and short-circuit overload. The extended warranty of additional five years would be valid when the MCB/ RCCB devices are used along with advanced range of Havells Distribution Boards only, which comply with all safety standards.

**Speaking at the occasion, Mr. Saurabh Goel President, Havells India Limited said,** "High performance, good quality and user-friendliness have been the hallmark of our products and this range is testimony to this belief. Punjab is a market where discerning consumers are open to adopting new technology with added advantages and utilities. We are confident that our new range of superior MCBs & RCCBs with extended six-year warranty will be well-appreciated by our customers."

*"We, as leaders in domestic switchgear segment, have always extended innovative solutions to safeguard users from risk of electricity, and it becomes all the more important in recent times as the dependence on electrical and electronic devices is on the rise. Havells' surge protection devices can be easily installed in existing distribution boards and eliminate the risk of voltage surge that can potentially deteriorate the life of electronic devices drastically. We will continue to come up with innovative quality products and set new industry benchmarks." he added further.*

The new range of SPDs, MCBs & RCCBs are manufactured at the company's state-of-the-art plant in Baddi, Himachal Pradesh. With a vision to achieve target of Rs 1,000 crore over next three years, the company has enhanced its manufacturing capacities to approximately 6 million poles per month.

Havells offers the most comprehensive range of RCCB, MCB, SPD & Distribution boards to cater to varied needs of circuit protection for New India. India's organized domestic switchgear market is estimated to be Rs 2500 crore per annum. Havells continues to retain its No.1 position in the category with about 25-27% market share.

## ABOUT HAVELLS

Havells India Ltd is a leading FMEG company (Fast moving electrical goods) with presence across India. Its product range includes Industrial & Domestic Circuit Protection Switchgear, Cables & Wires, Motors, Fans, Power Capacitors, Luminaires for Domestic, Commercial & Industrial applications, Modular Switches, Water Heaters and Domestic Appliances covering the entire gamut of household, commercial and industrial electrical needs. Havells owns prestigious brands like Havells, Crabtree and Standard. With 43 branch offices and over 4000 professionals Havells has achieved rapid success in the past few years. Its 12 state-of-the-art manufacturing units in India located at Haridwar, Baddi, Noida, Sahibabad, Faridabad, Alwar and Neemrana are manufacturing globally acclaimed products, synonymous with excellence and precision in the electrical industry.
