

Biodiversity Policy

The purpose of this organizational biodiversity policy is to outline our commitment to biodiversity conservation and sustainable practices within our operations and control.

Policy Statement

We are committed to the conservation and protection of biodiversity in all our operations through promotion and implementation of sustainable practices that minimize negative impacts on biodiversity and support its long-term viability.

Our Commitment

- We will integrate biodiversity considerations into our decision-making processes, policies, and practices.
- We will establish mechanisms to ensure compliance with biodiversity-related laws, regulations, and standards.
- We will adopt an ecosystem approach to ensure the conservation and sustainable use of biodiversity.
- We will take steps to prevent pollution, minimise waste generation, and prevent deforestation.
- We will continually seek opportunities to improve our biodiversity performance through monitoring, evaluation, and learning.
- We will promote sustainable practices in resource extraction, consumption, waste management, afforestation and energy use to minimize biodiversity impacts.
- We will provide training and raise awareness among employees about biodiversity conservation, sustainable practices, and their role in achieving organizational goals.
- We will encourage suppliers and contractors to adhere to biodiversity-friendly practices and standards.
- We will explore partnerships with organizations and initiatives that are dedicated to biodiversity conservation to leverage resources, knowledge, and expertise.
- We will prioritise the use of sustainably sourced materials, reducing the environmental footprint associated with our products and processes.

- We will provide regular reports on our biodiversity performance including our efforts to meet the goals outlined in this policy.

Regularly review and update this biodiversity policy to ensure its relevance, alignment with best practices, and compliance with emerging biodiversity conservation principles.

Our organizational biodiversity policy reflects our commitment to biodiversity conservation and sustainability. By integrating biodiversity considerations into our operations and fostering collaboration, we aim to contribute to the protection and enhancement of biodiversity.

Mr. Nitin Singh
Head – ERM & ESG
